PROFILE

As a highly skilled and passionate web developer, I am seeking a challenging role where I can utilize my technical expertise and creativity to build dynamic and user-friendly websites. With a strong foundation in front-end development, and web design, I am confident in my ability to deliver high-quality solutions that meet business requirements and exceed customer expectations.

WORK EXPERIENCE

2019 - 2023 DING.hu - Web developer, Budapest

Gomontir - Development of an administrative system enabling efficient user management, display of statistical data, as well as interactive map and appointment scheduling functionalities

- Listing, validation, and management of users with 4 levels of authorization
- UI rendering based on user authorization
- Statistical data: Filtering of registration, login, transactions, and financial data by date, and displaying them with graphs
- Displaying workshops on the map, filtering based on data
- Interactive calendar for workshops. Automatic display and management of tasks after appointment booking
- Integrating SimplePay and DokuPay

Gomontir mobile app

- Enhancing and optimizing existing functionalities
- Updating the SDK version
- Developing and publishing new versions of the application on Google Play and the App Store

Solar panels sales - Development of a web application for selling solar panels, designed to function offline and provide efficient tools for sales representatives to generate quotes and facilitate contract agreements

- Creating a Progressive Web App (PWA) using the Nuxt framework
- Enabling offline functionality for sales representatives to access the application even without an internet connection
- Implementing automatic data synchronization with the database upon reconnecting to the online environment
- Tracking changes in prices or availability for existing contracts
